INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and City Council of the City of South Tucson, Arizona

Reports on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of South Tucson, Arizona (the City), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of South Tucson, Arizona, as of June 30, 2020, and the respective changes in financial position thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the Management's Discussion and Analysis on pages 7 through 13, Budgetary Comparison Schedules on pages 56 through 61, Schedule of Proportionate Share of the Net Pension Liability - Cost-Sharing Plans on page 62, Schedule of Changes in the Net Pension Liability and Related Ratios - Agent Plans on pages 63 and 64, Schedule of Pension Contributions on pages 65 and 66 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Compliance Over the Use of Highway User Revenue Fund and Other Dedicated State Transportation Revenue Monies

In connection with our audit, nothing came to our attention that caused us to believe that the City failed to use highway user revenue fund monies the City received pursuant to Arizona Revised Statutes Title 28, Chapter 18, Article 2, and any other dedicated state transportation revenues the City received solely for the authorized transportation purposes, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the City's noncompliance with the use of highway user revenue fund monies and other dedicated state transportation revenues, insofar as they relate to accounting matters.

The communication related to compliance over the use of highway user revenue fund and other dedicated state transportation revenue monies in the preceding paragraph is intended solely for the information and use of the members of the Arizona State Legislature, the City Council, management, and other responsible parties within the City and is not intended to be and should not be used by anyone other than these specified parties.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 28, 2021, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

Fester & Chapman, PUC

September 28, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

(Required Supplementary Information)

As management of the City of South Tucson, Arizona (City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2020.

FINANCIAL HIGHLIGHTS

The financial statements which follow the Management's Discussion and Analysis provide those significant key financial highlights for 2019-20 as follows.

- The City's total net position of governmental activities decreased by \$1 million to \$1.3 million primarily due to long term pension liabilities.
- General revenues from governmental activities accounted for \$5.2 million in revenue, or 57 percent of all revenues from governmental activities. Program specific revenues in the form of charges for services and grants and contributions accounted for \$4 million or 43 percent of total governmental activities revenues.
- The City had \$10 million in expenses related to governmental activities, a decrease of \$2 million or 17 percent from the prior fiscal year.
- Among major funds, the General Fund had \$5.6 million in revenues, which primarily consisted of City sales taxes and intergovernmental revenues. The total expenditures of the General Fund were \$5.9 million. The General Fund's fund balance decreased from \$1.4 million to \$1.1 million.
- The Housing Fund had \$2.2 million in revenues which primarily consisted of intergovernmental revenues. The total expenditures of the Housing Fund were \$2.2 million.
- The Housing Fund reported a fund balance increase of \$43,801.
- The total expenditures of the Non-Major Governmental Fund were \$407,644. This Fund reported a fund balance decrease of \$20,821 primarily due to capital outlay in public safety.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private sector business. The accrual basis of accounting is used for the government-wide financial statements.

The statement of net position presents information on all of the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the City that are principally supported by sales taxes and intergovernmental revenues. The governmental activities of the City include general government, public safety, highways and streets, culture and recreation, redevelopment and housing, and economic development.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements use the modified accrual basis of accounting and focus on near term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's near term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General, Housing, Youth Operations Center, and Grant Fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining schedules.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The fiduciary funds financial statements are reported on the accrual basis of accounting, but due to their custodial nature, the fiduciary funds do not have a measurement focus.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's budget process. The City adopts an annual expenditure budget for all governmental funds. A schedule of revenues, expenditures and changes in fund balances budget and actual has been provided for the General Fund and major Special Revenue Funds as required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the City, liabilities exceed assets by \$1.4 million at the current fiscal year end.

The largest portion of the City's net position reflects its investment in capital assets (e.g., land, land improvements; buildings and improvements; infrastructure; machinery, equipment, and vehicles; and construction in progress), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The following table presents a summary of the City's net position for the fiscal years ended June 30, 2020 and June 30, 2019.

	Governmental Activities				
	2020	2019			
Current and other assets	\$ 2,697,127	\$ 2,279,625			
Capital assets, net	19,867,467	20,650,654			
Total assets, net	22,564,594	22,930,279			
Deferred outflows of resources	4,583,276	5,637,715			
Current liabilities	883,558	536,532			
Long-term liabilities	23,104,698	27,641,442			
Total liabilities	23,988,256	28,177,974			
Deferred inflows of resources	4,437,451	596,133			
Net investment in capital assets	13,738,953	14,421,782			
Restricted	449,422	933,428			
Unrestricted	(15,466,212)	(15,561,323)			
Total net position	\$ <u>(1,277,837)</u>	\$ (206,113)			

The City's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition of capital assets, and the depreciation of capital assets. The following are significant current year transactions that had an impact on the statement of net position.

- The decrease of total liabilities in the amount of \$4.1 million is primarily due to a decrease in the City's net pension liabilities.
- The reduction of \$783,187 million in capital assets is due mostly to depreciation expense.
- The decrease in deferred outflows of resources in the amount of \$1.1 million is related to pensions.

Changes in net position. The City's total revenues for the current fiscal year were \$9.3 million. The total cost of all programs and services was \$10 million. The following table presents a summary of the changes in net position for the fiscal years ended June 30, 2020 and June 30, 2019.

Net position, ending	\$ <u>(1,277,837)</u>	\$ (206,113)
-		

- Operating grants and contributions revenues increased \$575,180 due primarily to increased funding for capital outlay in Highways and streets, Public safety and Redevelopment and housing.
- Sales tax revenues increased \$370,042 due to increased sales activity prior to the COVID-19 Pandemic.
- General government expenditures decreased \$246,465 due primarily to the payoff of settlement fees and the associated legal costs incurred in 2019.
- Public safety expenditures decreased \$1.3 million due to the net pension liability.
- Interest on long-term debt decreased \$159,735 due to the refinance of the 2007 Series Bonds.

Governmental activities. The following table presents the cost of the City's functional activities. The table also shows each function's net cost (total cost less changes for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the City's taxpayers by each of these functions.

	2020			2019				
		Net (Expense)/					Net (Expense)/	
Governmental Activities	To	Total Expenses Revenue		Total Expenses		Revenue		
General government	\$	2,484,418	\$	(2,172,909)	\$	2,740,959	\$	(2,428,476)
Public safety		4,081,915		(3,722,754)		5,334,900		(4,969,252)
Highways and streets		1,080,959		(386,054)		1,110,791		(640,587)
Culture and recreation		267,068		63,662		209,425		30,854
Redevelopment and housing		2,108,958		87,529		2,169,825		(88,832)
Economic development		229		127,391		304		(304)
Interest on long-term debt	_	297,969	_	(297,969)	_	457,704	_	(457,704)
Total	\$_	10,321,516	\$_	(6,301,104)	\$_	12,023,908	\$_	(8,554,301)

- Federal and state governments and charges for services subsidized certain governmental programs with revenues of \$4.0 million.
- Net cost of governmental activities of \$6.3 million was financed by general revenues, which are made up of primarily City sales tax and state shared revenues of \$5 million.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

Governmental funds. The focus of the City's governmental funds is to provide information on near term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

The financial performance of the City as a whole is reflected in its governmental funds. As the City completed the year, its governmental funds reported a combined fund balance of \$1,685,949, a decrease of \$57,144 or 3 percent.

The General Fund is the principal operating fund of the City. The decrease in fund balance of \$307,785 from \$1.4 million as of fiscal year end was a result of the City refinancing its revenue bonds.

The fund balance increased \$43,801 in the Housing Fund to \$211,812 as of fiscal year end. Housing Fund expenditures increased \$293,584 from prior year due to capital outlay.

BUDGETARY HIGHLIGHTS

A schedule showing the original and final budget amounts compared to the City's actual financial activity for the General Fund is provided in this report as required supplementary information. The significant variances are summarized as follows:

- The favorable variance of \$371,018 in City sales tax revenues was due to an increase in sales activity.
- A favorable variance of \$17,907 in fine and fee revenues was primarily the result of property lien payoffs and off duty police vehicle revenue.
- An unfavorable variance of \$211,057 in public safety expenditures was a result of increased pension contributions due to the Public Safety Personnel Retirement System.
- An unfavorable variance of \$89,537 in debt service expenditures was a result of costs associated with refinancing the City's revenue bonds.

CAPITAL ASSETS AND DEBT ADMINISTRATION

<u>Capital Assets</u> As of year end, the City had invested \$19.9 million in capital assets, net of accumulated depreciation. This amount represents a net decrease of \$0.8 million. Total depreciation expense for the current fiscal year was \$1.3 million.

The following schedule presents capital asset balances for the fiscal years ended June 30, 2020 and June 30, 2019.

		Governmental Activities				
		2020		2019		
Capital assets - non-depreciable	\$	357,947	\$	315,962		
Capital assets - depreciable, net	_	19,509,520		20,334,692		
Total capital assets, net	\$	19,867,467	\$	20,650,654		

Additional information on the City's capital assets can be found in Note 4.

<u>Debt Administration</u> At year end, the City had \$6.7 million in long-term debt outstanding, excluding net pension liabilities. The following table presents a summary of the City's outstanding long-term debt for the fiscal years ended June 30, 2020 and June 30, 2019.

	Governmental Activities				
		2020		2019	
Revenue bonds payable	\$	6,128,514	\$	6,228,872	
Other commitments		1,715,469		1,749,283	
Total	\$	7,843,983	\$_	7,978,155	

Additional information on the City's long-term debt can be found in Note 5.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

City management considered many factors in the process of developing the operating budget for the fiscal year 2020-21. The most significant factors affecting the subsequent year's budget are:

- City sales tax growth trends
- Increased costs for public safety
- The City's operations may be affected by the recent and ongoing outbreak of the Coronavirus disease (COVID-19) which was declared a pandemic by the World Health Organization in March 2020. The disruption which may be caused by the outbreak is uncertain; however, it may result in an adverse impact on the City's financial position, operations, and cash flows. Possible effects may include, but are not limited to, disruption to the City's revenue streams, absenteeism in the workforce, unavailability of services and supplies used in operations, and a decline in value of assets held by the City, including inventories and property and equipment.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the resources it receives. If you have questions about this report or need additional information, contact the Finance Department, 1601 South 6th Avenue, South Tucson, Arizona 85713.

CITY OF SOUTH TUCSON, ARIZONA RECONCILIATION OF THE BALANCE SHEET TO THE STATEMENT OF NET POSITION JUNE 30, 2020

Fund balances - total governmental funds

Net position of governmental activities

\$ 1,685,949

\$ (1,277,837)

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore, are not reported in the funds.

Governmental capital assets Less accumulated depreciation	\$ 48,719,814 (28,852,347)	19,867,467
Some receivables are not available to pay for current-period expenditures and, therefore, are reported as unavailable revenue in the funds.		127,620
Deferred outflows and inflows of resources related to pensions/OPEB are applicable to future reporting periods and, therefore, are not reported in the funds.		145,825
Long-term liabilities, such as net pension/OPEB liabilities, bonds payable, compensated absences, are not due and payable in the current period and therefore, are not reported in the funds. Compensated absences Net pension liabilities Revenue bonds payable	(175,403) (15,085,312) (6,128,514)	
Other commitments	(1,715,469)	(23,104,698)

CITY OF SOUTH TUCSON, ARIZONA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2020

Net change in fund balances - total governmental funds		\$ (57,144)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Capital outlay Depreciation expense	\$ 553,473 (1,336,660)	(783,187)
City pension/OPEB contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the statement of net position because the reported net pension/OPEB liability is measured a year before the City's report date. Pension/OPEB expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pension, is reported in the statement of activities.		
Pension/OPEB contributions Pension/OPEB expense	986,953 (1,459,440)	(472,487)
Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of principal of long-term debt consumes the current financial resources of governmental funds. However, these payments have no effect on net position. This amount is the effect of difference in the treatment of repayments of long-term debt and related items.		
Revenue bond issued Payment to escrow agent for refunding	(6,445,135) 6,810,000	
Other commitments Revenue bond payable Amortization of bond discount	33,814 316,621 (581,128)	134,172
Under the modified accrual basis accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available resources. In the statement of activities, however, which is presented on the accrual basis of accounting, expenses and liabilities are reported regardless of when the financial resources are available.		
Compensated absences		(20,698)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		127,620
Change in net position of governmental activities		\$ <u>(1,071,724</u>)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of South Tucson, Arizona (the City) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

A summary of the City's more significant accounting policies follows.

A. Financial Reporting Entity

The City is a municipal entity that is governed by an elected mayor and city council. As required by accounting principles generally accepted in the United States of America, these financial statements present the City and its component units, entities for which the City is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the City's operations and so data from these units are combined with data of the City, the primary government.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The City is a primary government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, component units combined with the City for financial statement presentation purposes, and the City, are not included in any other governmental reporting entity. Consequently, the City's financial statements include the funds of those organizational entities for which its elected governing body is financially accountable.

South Tucson Municipal Property Corporation. The City of South Tucson, Arizona, Arizona Municipal Property Corporation's (MPC) Board of Directors are appointed by the City of South Tucson, Arizona's City Council. The MPC, which is a nonprofit corporation incorporated under the laws of the State of Arizona, was formed for the sole purpose of assisting the City in obtaining financing for various projects of the City. The MPC debt service is reported within the Debt Service Fund and within the governmental activities in the government-wide statements. Separate financial statements are not prepared on a standalone basis.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information about the City as a whole. The reported information includes all of the nonfiduciary activities of the City. For the most part, the effect of internal activity has been removed from these statements. These statements are to distinguish between the governmental and business-type activities of the City. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The City did not have any business-type activities during the year.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. City sales taxes, unrestricted state shared revenues, investment income and other items not included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and the major individual enterprise fund are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide Financial Statements - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule, the effect of internal activity has been eliminated from the government-wide financial statements; however, the effects of interfund services provided and used between functions are reported as expenses and program revenues at amounts approximating their external exchange value.

<u>Fund Financial Statements</u> - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, City sales taxes, licenses and permits, charges for services, fines and forfeits, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Miscellaneous revenue is not susceptible to accrual because generally they are not measurable until received in cash. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Unearned revenue arise when resources are received by the City before it has legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Delinquent property taxes and other receivables that will not be collected within the available period have been reported as deferred revenue on the governmental fund financial statements. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

The City reports the following major governmental funds.

<u>General Fund</u> - This fund accounts for all financial resources of the City, except those required to be accounted for in other funds.

Grants Fund - This fund accounts for various grants program activities.

Housing Fund - This fund accounts for the operations of the City's public housing program.

<u>HURF Fund</u> - This fund accounts for specific revenue received from the State of Arizona Highway User Revenue Fund, which is legally restricted to expenditures for authorized transportation purposes.

Additionally, the City reports the following fund type:

<u>Fiduciary Fund</u> - The Fiduciary Fund is a Pension Trust Fund which accounts for the activities of the Volunteer Firefighters' Relief and Pension Trust Fund (Trust Fund). The Trust Fund accumulates funds for the defined contribution pension plan administered by the City and a board of trustees for the City's volunteer firefighters.

D. Cash and Investments

Nonparticipating interest-earning investment contracts are stated at cost. Money market investments and participating interest investment contracts with a remaining maturity of one year or less at time of purchase are stated at amortized cost. All other investments are stated at fair value.

E. Investment Earnings

Investment earnings is composed of interest, dividends, and net changes in the fair value of applicable investments.

F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectibles.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Property Tax Calendar

The property tax levy, as described in the Arizona State Statutes, is divided into two levies, a primary levy and a secondary levy. Secondary taxes are levied strictly for the retirement and redemption of bonded indebtedness, while the primary levy may be used for any legal operating purpose. The primary property tax levy is limited to a 2% annual increase over the prior year's maximum allowable levy plus an adjustment for properties that were not taxed in the previous year.

Property taxes are levied by the City and collected by the County Treasurer. Real property taxes are levied on or before the third Monday in August, which become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May. The billings are considered past due after these dates, at which time the applicable property is subject to penalties and interest.

Pursuant to A.R.S., a lien against assessed real and personal property attaches on the first day of January preceding assessment and levy; however according to case law, an enforceable legal claim to the asset does not arise.

H. Inventory

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories consist of expendable supplies held for consumption. Inventories are recorded as expenses when consumed on the government-wide financial statements and as expenditures when purchased on the fund financial statements.

I. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the government-wide and fund financial statements. Prepaid items are recorded as expenses when consumed in both the government-wide and fund financial statements.

J. Capital Assets

Capital assets, which include land, land improvements, buildings and improvements, machinery, equipment, and vehicles; construction in progress; and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the governmental activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of \$5,000 or more and an estimated useful life of more than one year. Such assets are recorded at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at estimated fair market value at the date of donation. General government infrastructure capital assets include only those assets acquired or constructed since July 1, 2003.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of governmental activities is included as part of the capitalized value of the assets constructed.

Certain capital assets of the City are depreciated using the straight-line method over the following estimated useful lives:

Assets	<u>Years</u>
Land improvements	15 - 50
Buildings and improvements	20 - 50
Infrastructure	20 - 75
Machinery, equipment, and vehicles	3 - 15

K. Compensated Absences

The City's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay. Vacation benefits and compensation time vest for employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination. The current and long-term liabilities for accumulated vacation and compensation time are reported on the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements. Generally, resources from the General Fund are used to pay for compensated absences.

L. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Debt premiums and discounts, as well as issuance costs and the difference between the reacquisition price and the net carrying amount of the old debt, are deferred and amortized over the life of the debt using the straight-line method over the term of the related debt.

M. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the statement of activities. Interfund transfers in the fund statements are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds.

N. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

O. Deferred Outflows and Inflows of Resources

The statement of net position and balance sheet include separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to future periods that will be recognized as an expense or expenditure in future periods. Deferred inflows of resources represent an acquisition of net position or fund balance that applies to future periods and will be recognized as a revenue in future periods.

P. Post Employment Benefits

For purposes of measuring the net pension and other postemployment benefits (OPEB) assets and liabilities, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the plans' fiduciary net position and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2 - FUND BALANCE CLASSIFICATIONS

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

Nonspendable. The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact.

Restricted. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or is imposed by law through constitutional provisions or enabling legislation.

Unassigned. Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balances classifications could be used.

NOTE 2 - FUND BALANCE CLASSIFICATIONS (CONTINUED)

The table below provides detail of the major components of the City's fund balance classifications at year end.

	General Fund	Gr	ants Fund	Но	using Fund	Н	URF Fund	Ion-major vernmental Fund		Total
Fund Balances:										
Nonspendable:										
Inventory				\$	7,790				\$	7,790

Highways and streets						\$	347,886	5,407		353,293
Redevelopment and										
housing					62,800					62,800
Culture and recreation								69		69
Debt service										
Unassigned	\$ <u>1,087,515</u>					_			_	1,087,515
Total fund balances	\$ <u>1,087,515</u>	\$	27,838	\$	211,812	\$	347,886	\$ 10,898	\$_	1,685,949

NOTE 3 - CASH AND INVESTMENTS

A.R.S. authorize the City to invest public monies the State Treasurer's local government investment pools, the County Treasurer's investment pool, in obligations of the U.S. Government and its agencies, obligations of the State and certain local government subdivisions, interest-bearing savings accounts and certificates of deposit, collateralized repurchase agreements, certain obligations of U.S. corporations, and certain other securities. The statutes do not include any requirements for credit risk, custodial credit risk, concentration of credit risk, interest rate risk, or foreign currency risk for the City's investments.

Custodial Credit Risk – Deposits. In the case of deposits, this is the risk that in the event of bank failure, the City's deposits may not be returned. As of June 30, 2020, the carrying amount of deposits was \$1,582,167 and the bank balance was \$1,846,802. As of June 30, 2020, the City's deposits were fully insured by the Federal Deposit Insurance Corporation or collateralized by the Arizona State Treasurer pooled collateral program.

The State Treasurer's pools are external investment pools, the Local Government Investment Pool (Pool 5), with no regulatory oversight. The pools are not required to register (and are not registered) with the Securities and Exchange Commission. The activity and performance of the pools are reviewed monthly by the State Board of Investment. The fair value of each participant's position in the State Treasurer investment pools approximates the value of the participant's shares in the pool and the participants' shares are not identified with specific investments.

At year end, the City's investments consisted of the following.

Investment Type	Maturities	Fa	ir Value
U.S. Treasuries	Less than one year	\$	1,796
State Treasurer's investment pool 5			28,182
Total		\$	29,978

NOTE 3 - CASH AND INVESTMENTS (CONTINUED)

Interest Rate Risk - The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk - The City has no investment policy that would further limit its investment choices. The State Treasurer's investment pool 5 was rated AAAF/Sl+ by Standard and Poor's at year end.

Custodial Credit Risk - Investments. The City's investment in the State Treasurer's investment pool represents a proportionate interest in the pool's portfolio; however, the City's portion is not identified with specific investments and is not subject to custodial credit risk.

NOTE 4 - CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2020, was as follows.

Governmental activities:	July 1, 2019	Increases	Decreases	June 30, 2020
Capital assets not being depreciated:				
Land	\$ 315,962			\$ 315,962
Construction in progress		\$ <u>41,985</u>		41,985
Total capital assets not being depreciated	315,962	41,985		357,947
Capital assets being depreciated:				
Land improvements	2,970,748			2,970,748
Buildings and improvements	12,770,848	294,711		13,065,559
Infrastructure	28,556,406	45,895		28,602,301
Machinery, equipment and vehicles	3,552,377	170,882		3,723,259
Total capital assets being depreciated	47,850,379	511,488		48,361,867
Less accumulated depreciation for:				
Land improvements	(1,527,858)	(57,144)		(1,585,002)
Buildings and improvements	(8,454,254)	(306,791)		(8,761,045)
Infrastructure	(14,689,797)	(823,875)		(15,513,672)
Machinery, equipment and vehicles	(2,843,778)	(148,850)		(2,992,628)
Total accumulated depreciation	(27,515,687)	(1,336,660)		(28,852,347)
Total capital assets being depreciated, net	20,334,692	(825,172)		19,509,520
Governmental activities capital assets, net	\$ 20,650,654	\$ (783,187)		\$ 19,867,467

Depreciation expense was charged to governmental activities' functions as follows:

Governmental activities:	
General government	\$ 314,744
Public safety	193,852
Highways and streets	589,782
Redevelopment and housing	 238,282
Total depreciation expense -	
governmental activities	\$ 1,336,660

NOTE 5 - LONG-TERM DEBT

The following is a summary of changes in long-term debt of the City for the year ended June 30, 2020:

					Due Within
Governmental activities:	July 1, 2019	Additions	Reductions	June 30, 2020	1 Year
Revenue bonds payable	\$ 6,810,000	\$ 6,445,135	\$ (7,126,621)	\$ 6,128,514	\$ 225,813
Deferred bond discount	(581,128)		581,128		
Net bonds payable	6,228,872	6,445,135	(6,545,493)	6,128,514	225,813
Compensated absences payable	154,705	103,671	(82,973)	175,403	98,654
Net pension liabilities	19,508,582		(4,423,270)	15,085,312	
Other commitments	1,749,283		(33,814)	1,715,469	34,321
Governmental activities long-term liabilities	\$ <u>27,641,442</u>	\$ <u>6,548,806</u>	\$ <u>(11,085,550</u>)	\$ <u>23,104,698</u>	\$ 358,788

Revenue bonds currently outstanding are as follows:

	Original Amount Issued	Interest Rate	Remaining Maturities	Outstanding Principle June 30, 2020	Due Within One Year
Governmental activities:					
Excise Tax Revenue Bond, Series 2019	\$ 6,445,135	2.94%	7/1/20-34	\$ <u>6,128,514</u>	\$ 225,813
Total				\$ 6,128,514	\$ 225,813

The City has pledged future excise taxes and state shared revenues to repay an outstanding revenue bond and refunding revenue bonds of \$6.4 million as of June 30, 2020. Proceeds from the original bond issuances, including those subsequently refunded, provided financing for public works and other City vehicles and equipment. On December 19, 2019, an advance refunding of \$6.2 million was completed on the series 2007 revenue bonds and replaced with the series 2019 bonds. The bond is payable through 2034. The total principal and interest to be paid on the bonds is \$8.04 million. The current total excise taxes and state shared revenues were \$4,002,814 and the total principal and interest paid on the bond was \$401,891 or 10% of gross revenues.

Other commitments are composed of a long-term agreement with Pima County totaling \$1,100,000 related to the City's settlement of a lawsuit involving the collection of a secondary property tax for the tax years 2011 through 2013. In July 2019, the City entered into a promissory note with the County to finance the settlement. The promissory note matures in October 2038 and has an interest rate of 3.50%.

Other commitments are also composed of a long-term agreement with the Pima County Sheriff's department for service fees and interest charges for housing prisoners. In October 2013, Pima County and the City entered into a settlement agreement whereby \$806,155 of fees and interest charges were forgiven. In August 2017, the City revised the agreement to extend repayment of settlement amount, plus interest at the rate of 1.5%, over a 20-year period.

Compensated absences accrue during each pay period at a rate determined by years of service. Both vacation and personal time can be taken off from work, within certain limitations, or may be payable to employees upon termination or retirement.

NOTE 5 - LONG-TERM DEBT (CONTINUED)

Principal and interest payments on the governmental activities revenue bonds payable at year-end are summarized as follows:

		Governmental Activities							
		Bond l	Paya	able		Other Commitments			
Year ending June 30:		Principal		Interest		Principal		Interest	
2021	\$	225,813	\$	178,519	\$	76,055	\$	47,732	
2022		234,654		171,815		78,031		45,756	
2023		237,795		164,893		80,066		43,722	
2024		245,448		157,845		82,161		41,627	
2025		451,063		149,118		84,319		39,469	
2026-30		2,478,641		536,135		456,303		162,636	
2031-35		2,255,100		151,619		520,913		98,026	
2036-38	_		_		_	337,621		26,874	
Total	\$_	6,128,514	\$_	1,509,944	\$_	1,715,469	\$_	505,842	

NOTE 6 - INTERFUND BALANCES, PAYABLES AND TRANSFERS

The composition of interfund balances as of June 30, 2020, consisted of amounts loaned by the General Fund to the RICO and CDBG Funds to help meet fund obligations. The amounts payable from the RICO Housing, and CDBG Funds at year end were \$25,050, \$54,020 and \$65,795, respectively.

At year end, several funds had negative cash balances in the pooled cash accounts. Negative cash on deposit was reduced by interfund borrowing with other funds.

NOTE 7 - RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The City's insurance protection is provided by the Arizona Municipal Risk Retention Pool, of which the City is a participating member. The limit for basic coverage is \$2.0 million per occurrence on a claims made basis. Excess coverage is for an additional \$2.0 million per occurrence on a follow form, claims made basis. The Arizona Municipal Risk Retention Pool is structured such that member premiums are based on an actuarial review that will provide adequate reserves to allow the Pool to meet its expected financial obligations. The Pool has the authority to assess its members' additional premiums should reserves and annual premiums be insufficient to meet the Pool's obligations. No significant reduction in insurance coverage occurred during the year and no settlements exceeded insurance coverage during any of the past three fiscal years.

The City is insured by Arizona Municipal Workers Compensation Pool for potential worker related accidents.

NOTE 8 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

The City contributes to the three plans described below and on the following pages. The plans are component units of the State of Arizona. At June 30, 2020, the City reported the following aggregate amounts related to pensions and other postemployment benefits (OPEB) for all plans to which it contributes:

Statement of Net Position	Government		
and Statement of Activities		Activities	
Net pension and OPEB liabilities	\$	15,085,312	
Deferred outflows of resources related to pensions and OPEB		4,583,276	
Deferred inflows of resources related to pensions and OPEB		4,437,451	
Pension and OPEB expense		1,459,440	

The City did not disclose the OPEB plan separately because of its insignificance to the City's financial statements. The City's accrued payroll and employee benefits includes \$56,797 of outstanding pension and OPEB contribution amounts payable to all plans for the year ended June 30, 2020. Also, the City reported \$986,953 of pension and OPEB contributions as expenditures in the governmental funds related to all plans to which it contributes.

A. Arizona State Retirement System

Plan Description - City employees not covered by the other pension plans described below participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its website at www.azasrs.gov.

Benefits Provided - The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefits terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

ASRS	Retirement Initial membership date:					
	Before July 1, 2011	On or after July 1, 2011				
Years of service	Sum of years and age equals 80	30 years, age 55				
and age required	10 years, age 62	25 years, age 60				
to receive benefit	5 years, age 50*	10 years, age 62				
	any years, age 65	5 years, age 50*				
		any years, age 65				
Final average salary is	Highest 36 consecutive months	Highest 60 consecutive months				
based on	of last 120 months	of last 120 months				
Benefit percent per year						
of service	2.1% to 2.3%	2.1% to 2.3%				
*With actuarially reduced bene	fits.					

NOTE 8 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the retirement benefit option chosen determines the survivor benefit. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

Health insurance premium benefits are available to retired or disabled members with 5 years of credited service. The benefits are payable only with respect to allowable health insurance premiums for which the member is responsible. For members with 10 or more years of service, benefits range from \$100 per month to \$260 per month depending on the age of the member and dependents. For members with 5 to 9 years of service, the benefits are the same dollar amounts as above multiplied by a vesting fraction based on completed years of service.

Active members are eligible for a monthly long-term disability benefit equal to two-thirds of monthly earnings. Members receiving benefits continue to earn service credit up to their normal retirement dates. Members with long-term disability commencement dates after June 30, 1999, are limited to 30 years of service of the service on record as of the effective disability date if their service is greater than 30 years.

Contributions - In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2020, statute required active ASRS members to contribute at the actuarially determined rate of 12.11 percent (11.94 percent for retirement and 0.17 percent for long-term disability) of the members' annual covered payroll, and statute required the city to contribute at the actuarially determined rate of 12.11 percent (11.45 percent for retirement, 0.49 percent for health insurance premium benefit, and 0.17 percent for long-term disability) of the active members' annual covered payroll. The City's contributions to the pension, health insurance premium benefit, and long-term disability plans for the year ended June 30, 2020, were \$114,582.

During fiscal year 2020, the City paid for ASRS and OPEB contributions from the General Fund.

Liability - At June 30, 2020, the City reported a liability of \$1,486,452 for its proportionate share of the ASRS' net pension/OPEB liability.

The net asset and net liability was measured as of June 30, 2019. The total liability used to calculate the net asset and net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2018, to the measurement date of June 30, 2019. The City's proportion of the net asset and net liability was based on the City's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2019. The City's proportion measured as of June 30, 2019 was 0.01019 percent, which was a decrease of 0.001 percent from its proportion measured as of June 30, 2018.

Expense - For the year ended June 30, 2020, the City recognized pension expense for ASRS of \$(85,445).

NOTE 8 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Deferred Outflows/Inflows of Resources - At June 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

ASRS	(Deferred Dutflows Resources	-	Deferred Inflows Resources
Differences between expected and actual experience	\$	27,530	\$	3,384
Changes of assumptions or other inputs		12,317		59,047
Net difference between projected and actual earnings on pension plan investments				36,839
Changes in proportion and differences between City contributions and proportionate share of contributions				166,174
City contributions subsequent to the measurement date		114,582		
Total	\$	154,429	\$	265,444

The amount reported as deferred outflows of resources related to ASRS pensions and OPEB resulting from City contributions subsequent to the measurement date will be recognized as an increase of the net asset or a reduction of the net liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions and OPEB will be recognized as expenses as follows:

Year ending June 30,	
2021	\$ (143,020)
2022	(86,708)
2023	(5,916)
2024	9,756
2025	84
Thereafter	207

Actuarial Assumptions - The significant actuarial assumptions used to measure the total pension/OPEB liability are as follows:

ASRS	
Actuarial valuation date	June 30, 2018
Actuarial roll forward date	June 30, 2019
Actuarial cost method	Entry age normal
Investment rate of return	7.5%
Projected salary increases	2.7-7.2% for pensions/not applicable for OPEB
Inflation	2.3%
Permanent benefit increase	Included for pensions/not applicable for OPEB
Mortality rates	2017 SRA Scale U-MP for pensions and health
	insurance premium benefit
Recovery rates	2012 GLDT for long-term disability
Healthcare cost trend rate	Not applicable

Actuarial assumptions used in the June 30, 2018, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2016.

NOTE 8 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

The long-term expected rate of return on ASRS plan investments was determined to be 7.5 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

ASRS		Long-Term
	Target	Geometric Real
Asset Class	Allocation	Rate of Return
Equity	50%	6.09%
Credit	20%	5.36%
Interest rate sensitive bonds	10%	1.62%
Real estate	20%	5.85%
Total	100%	

Discount Rate - The discount rate used to measure the ASRS total pension/OPEB liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension/OPEB liability.

Sensitivity of the City's Proportionate Share of the ASRS Net Pension/OPEB (Asset) Liability to Changes in the Discount Rate - The following table presents the City's proportionate share of the net pension/OPEB (asset) liability calculated using the discount rate of 7.5 percent, as well as what the City's proportionate share of the net pension/OPEB (asset) liability would be if it were calculated using a discount rate that is one percentage point lower (6.5 percent) or 1 percentage point higher (8.5 percent) than the current rate:

ASRS	19	1% Decrease (6.5%)				1% Increase (8.5%)	
The City's proportionate share of the net pension/OPEB liability	\$	2,130,432	\$	1.486.452	\$	947.904	

Plan Fiduciary Net Position - Detailed information about the plans' fiduciary net position is available in the separately issued ASRS financial report.

NOTE 8 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

B. Public Safety Personnel Retirement System (PSPRS)

Plan descriptions - The City's police and fire employees who are regularly assigned hazardous duty participate in the Public Safety Personnel Retirement System (PSPRS) or employees who became members on or after July 1, 2017, may participate in the Public Safety Personnel Defined Contribution Retirement Plan (PSPDCRP). The PSPRS administers an agent and cost-sharing multiple-employer defined benefit pension plan and agent and cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plans. A nine-member board known as the Board of Trustees and the participating local boards govern the PSPRS according to the Provisions of A.R.S. Title 38, Chapter 5, Article 4. Employees who were PSPRS members before July 1, 2017, participate in the agent plans, and those who became PSPRS members on or after July, 1, 2017, participate in the cost-sharing plans (PSPRS Tier 3 Risk Pool) which are not further disclosed because of their relative insignificance to the City's financial statements.

The PSPRS issues publicly available financial reports that include their financial statements and required supplementary information for the PSPRS plan. The report is available on the PSPRS website at www.psprs.com.

Benefits Provided - The PSPRS provides retirement, health insurance premium supplement, disability, and survivor benefits for public safety personnel who are regularly assigned hazardous duty. State statute establishes benefits terms. Retirement, disability, and survivor benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

NOTE 8 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

PSPRS	Initial membe	rship date:				
	Before January 1, 2012	On or after January 1, 2012 and before July 1, 2017				
Retirement and Disability: Years of service and age required to receive benefit	service and age 20 years of service, any age					
Final average salary is based on	Highest 36 consecutive months of last 20 years	52.5 Highest 60 consecutive months of last 20 years				
Benefit percent						
Normal Retirement	50% less 2.0% for each year of credited service less than 20 years OR plus 2.0% to 2.5% for each year of credited service over 20 years, not to exceed 80%	1.5% or 2.5% per year of credited service, not to exceed 80%				
Accidental Disability Retirement	50% or normal retiremen	t, whichever is greater				
Catastrophic Disability Retirement	90% for the first 60 months th or normal retirement, v					
Ordinary Disability Retirement	Normal retirement calculated with actual years of credited service or 20 years of credited service, whichever is greater, multiplied by years of credited service (not to exceed 20 years) divided by 20					
Survivor Benefit:		-				
Retired Members	80% of retired members	er's pension benefit				
Active Members	80% of accidental disability retirement benefit or 100% of average monthly compensation if death was the result of injuries received on the job					

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on inflation. PSPRS also provides temporary disability benefits of 50 percent of the member's compensation for up to 12 months.

Health insurance premium benefits are available to retired or disabled members with 5 years of credited service. The benefits are payable only with respect to allowable health insurance premiums for which the member is responsible. Benefits range from \$100 per month to \$260 per month depending on the age of the member and dependents.

NOTE 8 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Employees Covered by Benefit Terms - At June 30, 2020, the following employees were covered by the agent plans' benefit terms:

	PSPRS - Police	PSPRS - Fire
Inactive employees or beneficiaries currently		
receiving benefits	16	7
Inactive employees entitled to but not yet		
receiving benefits	3	2
Active employees	10	1
Total	29	10

Contributions - State statutes establish the pension contribution requirements for active PSPRS employees. In accordance with state statutes, annual actuarial valuations determine employer contribution requirements for the PSPRS pension and health insurance premium benefits. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. Contributions rates for the year ended June 30, 2020, are indicated below. Rates are a percentage of active members' annual covered payroll.

	PSPRS - Police	PSPRS - Fire
Active members—Pension	7.65%	7.65%
City		
Pension	104.40%	391.48%
Health insurance premium benefit	2.01%	0%

The City's contributions to the plans for the year ended June 30, 2020, were:

		Healt	h Insurance
	 Pension		ium Benefit
PSPRS - Police	\$ 611,165	\$	8,776
PSPRS - Fire	241,867		

During fiscal year 2020, the City paid for PSPRS and OPEB contributions from the General Fund.

Liability - At June 30, 2020, the City reported the following assets and liabilities:

	1	Net Pension		et OPEB	
	(A	sset) Liability	(Asset) Liability		
PSPRS - Police	\$	10,200,426	\$	58,042	
PSPRS - Fire		3,231,750		(45,154)	

The net assets and net liabilities were measured as of June 30, 2019, and the total liability used to calculate the net asset or liability was determined by an actuarial valuation as of that date. The total liabilities as of June 30, 2019, reflect changes of actuarial assumptions to decrease the investment rate of return from 7.4 percent to 7.3 percent and update the mortality rates.

NOTE 8 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Actuarial Assumptions - The significant actuarial assumptions used to measure the total pension/OPEB liability are as follows:

PSPRS - Pension	
Actuarial valuation date	June 30, 2019
Actuarial cost method	Entry age normal
Investment rate of return	7.3%
Wage inflation	3.5% for pension/not applicable for OPEB
Price inflation	2.5% for pension/not applicable for OPEB
Cost-of-living adjustment	1.75% for pension/not applicable for OPEB
Mortality rates	PubS-2010 tables.
Healthcare cost trend rate	Not applicable

Actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2016.

The long-term expected rate of return on PSPRS plan investments was determined to be 7.3 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

PSPRS		Long-Term Expected Geometric
Asset Class	Target Allocation	Real Rate of Return
Short term investments	2%	0.25%
Risk parity	4%	4.01%
Fixed income	5%	3.00%
Real assets	9%	6.75%
GTS	12%	4.01%
Private credit	16%	5.36%
Real estate	10%	4.50%
Private equity	12%	8.40%
Non-U.S. equity	14%	5.00%
U.S. equity	16%	4.75%
Total	100%	

Discount Rate - At June 30, 2019, the discount rate used to measure the PSPRS total pension/OPEB liability was 7.3 percent, which was a decrease of 0.1 from the discount rate used as of June 30, 2018. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rate equal to the difference between the actuarially determined contribution rate and the member rate. Based on those assumptions, the plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension/OPEB liability.

NOTE 8 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Changes in the Net Pension/OPEB Liability - Changes in the net pension/OPEB liability are as follows for the year ended June 30, 2020:

		Pension		Health Insurance Premium Benefit

2024	1,977		(11,139)		4,000		344

C. Elected Officials Retirement Plan

Plan description - Elected officials and judges participate in the Elected Officials Retirement Plan (EORP). EORP administers a cost-sharing multiple-employer defined benefit pension plan and a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan for elected officials and judges who were members of the plan on December 31, 2013. The EORP pension and OPEB plans were closed to new members as of January 1, 2014. The PSPRS Board of Trustees governs the EORP according to the provisions of A.R.S. Title 38, Chapter 5, Article 3. The PSPRS issues a publicly available financial report that includes its financial statements and required supplementary information, for the EORP plans. The report is available on PSPRS's website at www.psprs.com.

NOTE 8 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Benefits provided - The EORP provides retirement, health insurance premium supplement, disability, and survivor benefits. State statute establishes benefit terms. Retirement, disability, and survivor benefits are calculated on the basis of age, average yearly compensation, and service credit as follows:

EORP	Initial membership date:					
	Before January 1, 2012	On or after January 1, 2012				
Retirement and Disability:	·	·				
Years of service and age	20 years, any age	10 years, age 62				
required to receive benefit	10 years, age 62	5 years, age 65				
	5 years, age 65	any years and age if disabled				
	5 years, any age*					
	any years and age if disabled					
Final average	Highest 36 consecutive	Highest 60 consecutive				
salary is based on	months of last 10 years	months of last 10 years				
•	·	•				
Benefit percent	40/	20/				
Normal Retirement	4% per year of service, not to exceed 80%	3% per year of service, not to exceed 75%				
	not to exceed 80%	not to exceed 7376				
Disability Retirement	80% with 10 or more years of service	75% with 10 or more years of service				
	40% with 5 to 10 years of service	37.5% with 5 to 10 years of service				
	20% with less than 5 years of service	18.75% with less than 5 years of service				
Survivor Benefit:						
Retired Members	75% of retired member's benefit	50% of retired member's benefit				
	, , , , , , , , , , , , , , , , , , , ,					
Active Members and Other Inactive Members	75% of disability retirement benefit	50% of disability retirement benefit				

^{*} With reduced benefits of 0.25% for each month early retirement precedes the member's normal retirement age, with a maximum reduction of 30%.

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on inflation. In addition, the Legislature may enact permanent one-time benefit increases after a Joint Legislative Budget Committee analysis of the increase's effects on the plan.

Health insurance premium benefits are available to retired or disabled members with 5 years of credited service. The benefits are payable only with respect to allowable health insurance premiums for which the member is responsible. Benefits range from \$100 per month to \$260 per month depending on the age of the member and dependents. For members with 5 to 7 years of service, the benefits are the same dollar amounts as above multiplied by a vesting fraction based on completed years of service.

NOTE 8 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Contribution - State statutes establish active member and employer contribution requirements. Statute also appropriates \$5 million annually through fiscal year 2043 for the EORP from the State of Arizona to supplement the normal cost plus an amount to amortize the unfunded accrued liability. For the year ended June 30, 2020, statute required active EORP members to contribute 7 or 13 percent of the members' annual covered payroll and the City to contribute at the actuarially determined rate of 61.43 percent of all active EORP members' annual covered payroll. Also, statute required the City to contribute 49.49 percent to EORP of the annual covered payroll of elected officials and judges who were ASRS members and 55.43 percent to EORP of the annual covered payroll of elected officials and judges who were EODCRS members, in addition to the City's required contributions to ASRS and EODCRS for these elected officials and judges. The City's contributions to the pension and health insurance premium benefit plans for the year ended June 30, 2020, were \$10,301 and \$261, respectively.

During fiscal year 2020, the City paid for EORP pension contributions from the General Fund.

Liability - At June 30, 2020, the City reported a liability for its proportionate share of the EORP's net pension liability that reflected a reduction for the City's proportionate share of the State's appropriation for EORP. The amount the City recognized as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the City were as follows:

City's proportionate share of the EORP net pension liability	\$ 172,474
State's proportionate share of the EORP net pension liability	
associated with the City	16,211
Total	\$ 188,685

The City also reported an asset of \$18,678 for its proportionate share of EORP's net OPEB asset.

The net asset and net liability was measured as of June 30, 2019, and the total liability used to calculate the net asset and net liability was determined by an actuarial valuation as of that date. The total liabilities as of June 30, 2019, reflect changes of actuarial assumptions to decrease the investment rate of return from 7.4 percent to 7.3 percent and update the mortality rates.

The City's proportion of the net pension liability was based on the City's required contributions to the plan relative to the total of all participating employers' required contributions for the year ended June 30, 2019. The City's proportion of the net OPEB asset was based on the City's present value of benefits relative to the total of all participating employers' present value of benefits for the year ended June 30, 2019. The City's proportion measured as of June 30, 2019 was 0.02739 percent, which was a decrease of 0.00139 percent from its proportion measured as of June 30, 2018.

NOTE 8 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Expense - For the year ended June 30, 2020, the City recognized pension and OPEB expense for EORP of \$(23,830) and \$(1,013), respectively for the City's proportionate share of the State's appropriation to EORP and the designated court fees.

Deferred outflows/inflows of resources - At June 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions and OPEB from the following sources:

EORP	Pension				Health Insurance Premium Benefit			
LOM		Deferred	13101	Deferred Inflows of	_	Deferred		Deferred Inflows of
		esources		Resources	_	Outflows of Resources		Resources
Differences between expected and actual experience	\$	3,845	\$	164	\$	598	\$	193
Changes of assumptions or other		542		4,901		42		
inputs Net difference between projected and actual earnings on pension		342		4,901		42		
plan investments Changes in proportion and differences between city		1,173				62		
contributions and proportionate share of contributions City contributions subsequent to		2,394		6,182		10,976		1,479
the measurement date Total	\$	10,301 18,255	\$	11,247	\$	261 11,939	\$	1,672

The amounts reported as deferred outflows of resources related to EORP pensions and OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to EORP pensions and OPEB will be recognized as expenses as follows:

Year ending			Healt	h Insurance
June 30,	_	Pension	Prem	ium Benefit
2021	\$	(3,625)	\$	3,970
2022		(299)		5,642
2023		328		202
2024		303		192

NOTE 8 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Actuarial assumptions - The significant actuarial assumptions used to measure the total pension/OPEB liability are as follows:

EORP	
Actuarial valuation date	June 30, 2019
Actuarial cost method	Entry age normal
Investment rate of return	7.3%
Wage inflation	3.75% for pensions/not applicable for OPEB
Price Inflation	2.5% for pensions/not applicable for OPEB
Cost-of-living adjustment	1.75% for pensions/not applicable for OPEB
Mortality rates	PubG-2010 tables
Healthcare cost trend rate	Not applicable

Actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2016.

The long-term expected rate of return on EORP plan investments was determined to be 7.3 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

EORP		Long-Term Expected Geometric
Asset Class	Target Allocation	Real Rate of Return
Short term investments	2%	0.25%
Risk parity	4%	4.01%
Fixed income	5%	3.00%
Real assets	9%	6.75%
GTS	12%	4.01%
Private credit	16%	5.36%
Real estate	10%	4.50%
Private equity	12%	8.40%
Non-U.S. equity	14%	5.00%
U.S. equity	16%	4.75%
Total	100%	-

NOTE 8 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Discount rates - At June 30, 2019, the discount rates used to measure the EORP total pension liability and total OPEB liability was 7.3 percent, which was a decrease of 0.1 from the discount rate used as of June 30, 2018. The projection of cash flows used to determine the discount rates assumed that plan member contributions will be made at the current contribution rate, employer contributions will be made at the actuarially determined rates, and state contributions will be made as currently required by statute. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension/OPEB liability.

Sensitivity of the City's proportionate share of the EORP net pension/OPEB (asset) liability to changes in the discount rate - The following table presents the City's proportionate share of the net pension/OPEB (asset) liability calculated using the discount rates of 7.3 percent, as well as what the City's proportionate share of the net pension/OPEB (asset) liability would be if it were calculated using a discount rate that is one percentage point lower (6.3 percent) or one percentage point higher (8.3 percent) than the current rate:

EORP	Current					
	1% Decrease (6.3%)	Discount Rate (7.3%)	1% Increase (8.3%)			
City's proportionate share of the net pension liability City's proportionate share of	\$ 197,509	\$ 172,474	\$ 151,151			
the net OPEB (asset)	(16,470)	(18,678)	(20,599)			

Plan Fiduciary Net Position - Detailed information about the plans' fiduciary net position is available in the separately issued EORP financial report.

CITY OF SOUTH TUCSON, ARIZONA NOTES TO BUDGETARY COMPARISON SCHEDULES JUNE 30, 2020

NOTE 1 - BUDGETARY BASIS OF ACCOUNTING

The accompanying Budgetary Comparison Schedules are prepared on a modified accrual basis of accounting.

Expenditures may not legally exceed the expenditure limitation described below for all fund types as a whole. For management purposes, the City adopts a budget by department for the General Fund and in total by fund for other funds (except for the Housing Fund). The City Manager, subject to City Council approval, may at any time unencumbered appropriation balance or option thereof between a department or activity. The adopted budget can not be amended in any way without City Council approval.

NOTE 2 - EXCESS EXPENDITURES OVER BUDGET

At year end, the City had expenditures in the General Fund, Grants Fund and Housing Fund that exceeded the budget; however, this does not constitute a violation of any legal provisions.

Fund/Department	 Excess
General Fund:	
Administration	\$ 2,000
Mayor and Council	991

CITY OF SOUTH TUCSON, ARIZONA NOTES TO PENSION PLAN SCHEDULES JUNE 30, 2020

NOTE 1 – ACTUARIALLY DETERMINED CONTRIBUTION RATES

Actuarial determined contribution rates for PSPRS are calculated as of June 30 two years prior to the end of the fiscal year in which contributions are made. The actuarial methods and assumptions used to establish the contribution requirements are as follows:

Actuarial cost method Entry age normal

Amortization method Level percent-of-pay, closed

Remaining amortization period as of the 2018 actuarial valuation

18 years

Asset valuation method 7-year smoothed market value; 80%/120% market corridor

Actuarial assumptions:

Investment rate of return PSPRS members with initial membership date before July 1, 2017:

> In the 2017 actuarial valuation, the investment rate of return was decreased from 7.5% to 7.4%. In the 2016 actuarial valuation, the investment rate of return was decreased from 7.85% to 7.5%. In the 2013 actuarial valuation, the investment rate of return was

decreased from 8.0% to 7.85%.

PSPRS members with initial membership on or after July 1, 2017:

7%.

Projected salary increases In the 2017 actuarial valuation, projected salary increases were

> decreased from 4.0%-8.0% to 3.5%-7.5% for PSPRS. In the 2014 actuarial valuation, projected salary increases were decreased from 4.5%-8.5% to 4.0%-8.0% for PSPRS. In the 2013 actuarial valuation, projected salary increases were decreased from

5.0%-9.0% to 4.5%-8.5% for PSPRS.

Wage growth In the 2017 actuarial valuation, wage growth was decreased from

> 4% to 3.5% for PSPRS. In the 2014 actuarial valuation, wage growth was decreased from 4.5% to 4.0% for PSPRS. In the 2013 actuarial valuation, wage growth was decreased from 5.0% to 4.5%

for PSPRS.

Retirement age Experience-based table of rates that is specific to the type of

> eligibility condition. Last updated for the 2012 valuation pursuant to an experience study of the period July 1, 2006 - June 30, 2011.

Mortality In the 2017 actuarial valuation, changed to RP-2014 tables, with

75% of MP-2016 fully generational projection scales. RP-2000

mortality table (adjusted by 105% for both males and females)

CITY OF SOUTH TUCSON, ARIZONA NOTES TO PENSION PLAN SCHEDULES JUNE 30, 2020

NOTE 2 - FACTORS THAT AFFECT TRENDS

Arizona courts have ruled that provisions of a 2011 law that changed the mechanism for funding permanent pension benefit increases and increased employee pension contribution rates were unconstitutional or a breach of contract because those provisions apply to individuals who were members as of the law's effective date. As a result, the PSPRS, and EORP changed benefit terms to reflect the prior mechanism for funding permanent benefit increases for those members and revised actuarial assumptions to explicitly value future permanent benefit increases. PSPRS and EORP also reduced those members' employee contribution rates. These changes are reflected in the plans' pension liabilities for fiscal year 2015 (measurement date 2014) for members who were retired as of the law's effective date and fiscal year 2018 (measurement date 2017) for members who retired or will retire after the law's effective date. These changes also increased the PSPRS-required pension contributions beginning in fiscal year 2016 for members who were retired as of the law's effective date. These changes increased the PSPRS-required contributions beginning in fiscal year 2019 for members who retired or will retire after the law's effective date. EORP-required contributions are not based on actuarial valuations, and therefore, these changes did not affect them. Also, the County refunded excess employee contributions to PSPRS and EORP members. PSPRS and EORP allowed the County to reduce its actual employer contributions for the refund amounts. As a result, the County's pension contributions were less than the actuarially or statutorily determined contributions for 2018 and 2019.

The fiscal year 2019 (measurement date 2018) pension liabilities for EORP reflect the replacement of the permanent benefit increase (PBI) for retirees based on investment returns with a cost of living adjustment based on inflation. Also the EORP liability and required pension contributions for fiscal year 2019 reflect a statutory change that requires the employer contribution rate to be actuarially determined. This change increased the discount rate used to calculate the liability thereby reducing the total pension liability.

NOTE 3 - OPEB DISCLOSURE

No OPEB pension plan schedules were provided as it was considered insignificant to the financial statements.
